

SOLIDS COLLECTION

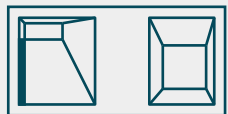

BETONLAB
THE BEAUTY OF CONCRETE

SOLIDS COLLECTION

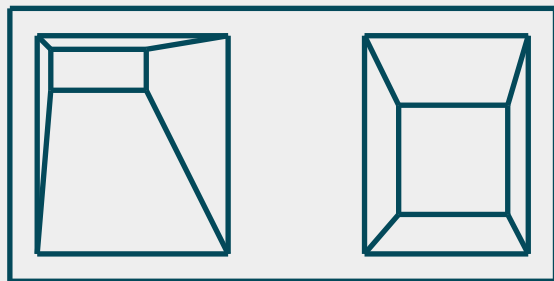

Due to its volume and robust perception, the Solids collection is created with its Sapphire and Agate references.

SAPPHIRE
REFERENCE

AGATE
REFERENCE

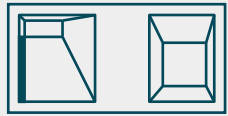

SAPPHIRE REFERENCE

The Sapphire reference allows light rays to enter through small windows, evoking the reflection that the gem produces.

SOLIDS COLLECTION

SAPPHIRE REFERENCE

2 P

3 P

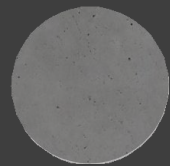

The Sapphire reference is a construction system made up of 2 pieces that help to shape the walls. Depending on which pieces are used to build the wall, it may have more or less opening percentage.

SOLIDS COLLECTION / SAPPHIRE REFERENCE

SYSTEM COMPONENTS

The pieces are made of high-strength concrete and its smooth finish gives a differential aesthetic added value. In addition to the variety of colors that we offer, we can adjust to new shades according to the client's needs.

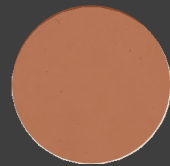

Our primary color palette is:

Graphite Gray

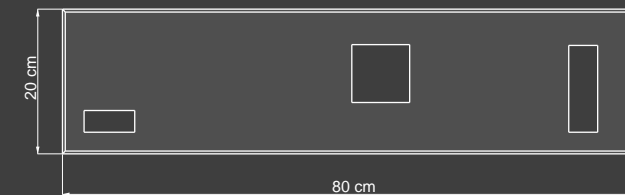

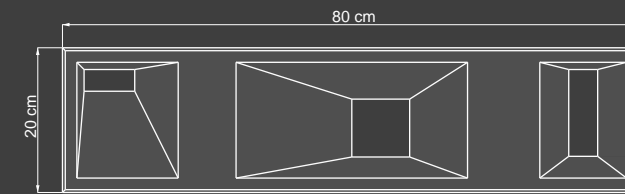

Ivory white

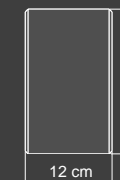

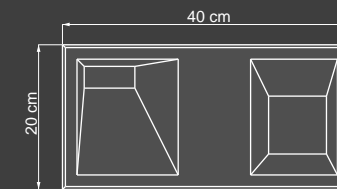

Ocher Brown

AGATE

REFERENCE

The Agate variation has rounded corners shaping the light in its own way and generating a special atmosphere inside.
